best talents in comics - a who's who of creative minds. Jock, Fabio Moon, James Tynion IV, Robert Rodi, Shaun Simon, Amy Chu, Joe Keatinge, Cris Peter, Tony Akins and more will take on the challenge of telling compelling stories that scream cool "blue." ## PETER PARKER RETURNS...

Well, it has taken six months longer than I predicted, but, Peter Parker is back as the one and only Amazing Spider-Man!

To be honest I have actually enjoyed the Superior Spider-Man run. The comic still felt it was a Spider-Man comic, but obviously Otto, from his actions and thoughts, was not Peter Parker. There were nice touches of insight into Otto Octavius's mind in it's pure hateful, selfish, egotistical and deadly form. The introduction of Peter Parker's purer and more noble mind patterns affecting Otto to a greater or smaller extent displayed, at least for me, what a thin line there is between a civilised mind and a baseline savage mind.

My feelings are that it was a resounding success. Despite the hate mail received by Marvel and Dan Slott, and a significant number of people not buying the title, it did attract new

readers as well as keep the majority of long term readers. The sales of the title remained consistent through the entire run - a sign to me that those that bought it were enjoying it.

I am really looking forward to the relaunch in a way that I haven't for a long time about any Marvel launch or relaunch. I have missed the purer and happy character of Peter Parker. The Marvel universe is populated by too many grim and gritty characters. Whilst knowing that grim characters and more violent scenarios are more realistic should people have these god-like powers, I mainly read comics to see the bad guys beaten and the good guys win in a triumphant manner (and with the good guys suffering no more than a scratch and the occasional dented ego).

Should the speculator buy into this new number one? Will it rise in value quickly? To these questions I answer

NO. We retailers will buy a large amount of stock, a large number of people will buy just number one and the last Amazing Spider-Man #1, after the first relaunch (Volume 2 in 1999), is still only a £5 - £10 book.

Amazing Spider-Man is my top comic tip for the month for the startling, staggering and amazing reason, it will be a great and refreshing *enjoyable read*. The Biff thumbs up!

Last month in amongst my tips for titles to try this year was Rachel Rising. This month the fourth volume of reprints is listed and it's a good time to get on board with this volume collecting issues #19-24. The advert from Terry Moore carries the unbelievable quote, "Easily one of the best comics being published today." Unbelievable because the quote is from Amazon! This is just a cunning segue into a little rant about that

monolithic leviathan that is crushing small shops and people.

Amazon only achieve low prices by paying their staff minimum wage and then treating them in a similar manner to Victorian work-house owners. They legally avoid virtually all of the government legislation designed to safeguard employees. They may employ thousands, but they have also caused the closure of numerous small book shops, toy shops and more. Making, I feel, a greater number of people unemployed than the jobs they create. The profits they make are siphoned off to other countries whilst paying virtually no tax in the UK. They get subsidies from the UK government and councils, and they take more from the UK than they give.

By all means use Amazon to buy from the independent traders that they host, but not from Amazon PLC. As a matter

of principal, I will not buy from Amazon PLC and will pay a little bit more and buy from a smaller independent.

Finally my top graphic novel tip for the month is Afterlife With Archie Vol.1: Escape from Riverdale. Besides finding all the Archie Comic Riverdale titles the best light-hearted read in comics today, this zombie twist on Riverdale is absolutely superb. The first three issues are hard to find, so rush out and buy this reprint of #1-5 for a brilliant take on zombies and Archie which has great art and an engaging storyline, but continues to be an all ages book. Superb. This also gets the Biff thumbs up!

Marvel Two In One ran for 100 issues between 1974 and 1983. A

From Marvel's fantastic 'Essentials' series, we look at the fourth bumper collection of **Marvel Two-In-One** featuring **Ben Grimm**, aka **The Thing**!

glorious time in Marvel history. A new generation of writers, excited by Stan Lee's new style, were emerging right across the Marvel universe, taking the baton from Stan and moving it on and upwards.

This series, that teamed the Thing with a different hero each month, had a continued thread between all the issues developing the character of Ben Grimm and the Fantastic Four family.

Volume four written mainly by Tom DeFalco and drawn by Ron Wilson reprints 78 to 98 and 100 plus Annuals 6,7. Issue 99 is missing as this was a Rom The Space Knight tale and presumably copyright permission was not given.

These tales are full of whimsy, 88 and the She Hulk, sheer hokum, Annual 7 and the boxing contest between the cosmic elder Cham-

pion and The Thing which ends up with the earth saved, Ben Grimm in hospital, but a national hero, and action such as 92 and 93 featuring Jocasta and Machine Man as they save the world from Ultron.

The underlying feeling that emanates from all the stories is one of hope, spirit and the joy of life. Liberally sprinkled throughout each story are humour and pathos in equal quantities. Plus the consistency in art and writer give a strong sense of identity to the comic and The Thing. Black and white reprints they maybe but 24 comics for £14.99 is excellent value. It is now inspired me to track down some of the original comics. a lot of which can be found in store bargain boxes for £1.00 or less.
