### **STAR SLAMMERS: REMASTERED #1**

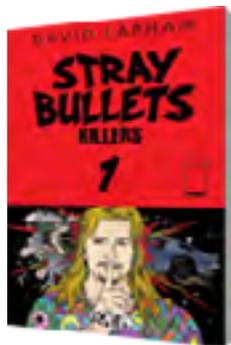

Walter Simonson

Walter Simonson can honestly be described as a living legend. Besides co-creating Manhunter with the great Archie Goodwin, in the early days of his career, Simonson has written and drawn nearly all of the Marvel and DC characters at one time or another. Highlights include The Fantastic Four, Batman, Orion, Elric, and his groundbreaking run on The Mighty Thor.

But before all of these, there was Star Slammers, a series first devised by Simonson during his college days. The Slammers would later be resurrected as a Marvel Graphic Novel, and then a mini-series. Simonson describes it thus: Once upon a time, there was a race of men who could out-shoot, out-fight, and out-kill anybody. They were paid fabulous sums to act as mercenaries. The practice became so lucrative, they decided to go into business. They became the most successful businessmen in history, and they called themselves...The Star Slammers!

## NEW YEAR MUSINGS...

The year 2013 saw quite strong growth for our mail order and shop sales and I believe the industry in general saw an increase in sales. More and more people are becoming accepting of the medium of comics. This is partly driven by the plethora of comic based movies, a large part by The Big Bang Theory, and a considerable part by digital comics and web only comics.

For 2014 I see an increase in sales again, driven by the independent market more than the big two. Marvel, I feel, have got themselves embroiled in a self defeating arc of never ending number ones and re-launches. All I can report is that each time they re-launch, the spike in interest gets smaller and smaller and the drop off is bigger within a few issues. They, Marvel, seem to be chasing or creating a niche market of customers who only buy into a title for one to four issues and have a short attention span.

DC having ditched past continuity are in danger of creating a new continuity which is semi-entwined with pre 52 stories and will ultimately chase itself up its own tail.

Both houses are creating planet destroying story lines that then lead on to further, bigger planet destroying story lines which in a short time will have eliminated all life on planet earth.

Whereas these stories keep new readers intrigued for a few years they have lost the art of creating the soap opera world which kept the readers coming back month after month after month, in fact for decades.

The task of keeping readers interested and drawing in younger readers to the medium is falling to the smaller publishing house.

Boom have a truly excellent stable of all ages comics: Adventure Time, Peanuts, Garfield, graphic novels like City In The Desert and Beautiful Scars.

IDW have My Little Pony, Ghostbusters, TMNT, Samurai Jack, Powerpuff Girls and Popeye.

Bongo Comics have The Simpsons and Spongebob Squarepants.

Archie Comics continue to excel and sales for us of these comics have tripled in the last year.

PaperCutz have a continuing all ages output of which The Smurfs is the most prominent. Finally Kodansha and VIZ publish a large range of all ages Manga titles. They bring in customers who have watched the cartoons on television or the web.

To keep the adult reader interested the range continues to grow.

Image have a great stable of titles covering all genres by seasoned professionals and talented newcomers. They have now established a great back catalogue of graphic novels and are number two for us in sales of trades. DC are number one for trades at the moment.

For violent senseless entertainment Avatar reign supreme with Crossed, Uber, God is Dead and more.

For more cerebral output then Fantagraphics and Top Shelf continue to push the envelope and have many award winning titles and creators. This year from Top Shelf sees the next instalment of Alan Moore and Kevin O'Neill's League stories, Nemo The Roses Of Berlin.

Oni Press have the awesome Letter 44 series, Wasteland and Sixth Gun, all absorbing books.

Cinebook continue to release English language editions of European best sellers like Iznogoud, The Scorpion, XIII, Pandora, Lucky Luke to name a few.

I finish with a boost for one of the top

independent creators Terry Moore, whose current hit is Rachel Rising, up to #24 and going strong, maybe a TV series or movie in view.

All in all a strong field, more than enough to keep the growth continuing.

Marvel and DC may stumble but there are many to take up the baton should that ever happen. They should take a few moments out and look at what their competitors are doing and sharpen their acts up before a rot sets in that cannot be stopped.

Final observation is that when creators work for the bigger companies they are on a treadmill that can sap their creative spirits and not produce a large salary. Small independent creators such as Terry Moore can produce just one extremely well drawn and well written book a month and still create a healthy salary. They also benefit from the back market with trades of their previous work.

If you are feeling a change from the super hero market is what you need then check out Previews and the publishers I have mentioned above. It will not be a waste of time.

A GUIDE TO GRAPHIC NOVELS YOU MAY HAVE MISSED...

**BATMAN:  
HUSH**  
DC  
Loeb, Lee

*“The epic crime thriller that rejuvenated The Caped Crusader is now available in one place as a trade paperback! In this story of murder, mystery and romance, Batman sets out on a simple mission to discover the identity of the mysterious villain wreaking havoc in his life known as Hush. But Batman ends up facing possibly the most intense case of his life as secrets from his past flood into the present, and the most notorious villains to ever haunt Gotham City’s street attack simultaneously! Guest-starring The Dark Knight’s greatest allies and enemies, this*

Following the success of Rocksteady’s Batman: Arkham Origins videogame, we take a look at **Hush**, a Batman story that contributed to an upsurge in sales of Batman

*collection features Batman #608-619 as well as the 6-page segment from Wizard #0 and a 2-page origin story that originally appeared at dc-comics.com. From best-selling writer Jeph Loeb (Superman/Batman, TV’s Heroes) and superstar artist Jim Lee (Superman, X-Men) comes the long-awaited collection!”*

In 2002 Jeph Loeb and Jim Lee replaced Ed Brubaker and Scott McDaniel on DC’s main Batman book, starting with issue #608. They collaborated on a planned arc concerning a brand new villain called Hush, who sets out to destroy the Batman.

The story opens at pace with Batman exploring the sewers, hot on the heels of Killer Croc, and remains engaging and exciting throughout

its entirety. An intricate and clever plot peppered with clues and red herrings calls on appearances from a number of familiar foes (some from beyond the grave!) and successfully maintains its engaging mystery right to the end.

Loeb’s writing is excellent, and the Gotham City cast has rarely looked better than it does beneath the pencils of the mighty Jim Lee!

All-in-all, Batman: Hush is one of the highlights in the history of the Dark Knight Detective, and a must-read for anyone that missed it first time around.
